</Document-Invoice>							

- 1) Field filled in at the stage of document processing by ECOD.
- 2) This segment should be used here if the Return Notification Number applies to all items covered by the invoice. In case the numbers are various for specific items, the numbers will be provided at the line level of the product.
- 3) This section provides information on the registered office of the company that issues the invoice. Pursuant to the Act (Journal of Laws of 2006, No. 208, item 1540, Act of 18 October 2006 amending the Act on the National Court Register and certain other acts - ustawą (Dz.U. 2006 nr 208 poz. 1540 Ustawa z dnia 18 października 2006 r. o zmianie ustawy o Krajowym Rejestrze Sądowym oraz niektórych innych ustaw), this section must appear in the communication if the issuer of the document is obliged to do so by legal provisions (Commercial Law Companies - Spółki Prawa Handlowego).
- 4) In the case of tax exemption or deposit goods, information on the VAT rate cannot appear in the document.
- 5) The field must be completed if an invoice is issued without a paper version.
- 6) The <UnitOfMeasure> field must be filled in if an invoice is issued without a paper version. The <PackItemUnitOfMeasure> field is optional. Acceptable measurement units that can appear in these fields:

Unit of measure	Code of the unit of measure <UnitOfMeasure>
meter	MTR
square meter	MTK
kilogram	KGM
liter	LTR
piece	PCE
pair (two items combined)	PR
metric tone (1000kg)	TNE

Upon agreement with the retail network (chain), additional ISO units are allowed.

7) Dla faktur korygujących pole to powinno zawierać różnicę pomiędzy prawidłową, a korygowaną sumą brutto słownie. For correction invoices, this field should contain the difference between the correct and corrected gross sum in words.

8) The field <CourtAndCapitalInformation> should contain the following information:

- designation of the registry court and registry number
- the amount of share capital and paid-up capital

Pursuant to the Act (Journal of Laws of 2006, No. 208, item 1540, Act of 18 October 2006 amending the Act on the National Court Register and certain other acts), this segment must appear in the communication if the issuer of the document is required to do so by legal provisions (Commercial Law Companies).

Example: "KRS 0000011111 District Court in Poznań, XXI Commercial Division of the National Court Register, share capital PLN 2,220,000, paid-up capital PLN 2,120,000"

9) The section must appear in the header or at the line level for correction invoices.

10) If the order number and date are the same for all items included in the invoice, the <Order> segment must be filled and the <Line-Order> segment is not present. Otherwise, the <Order> segment is absent and the <Line-Order> segment must be filled for each line item.

11) If the ILN of the delivery location (store), Delivery date and its number are the same for all items included in the invoice, the <Delivery> segment must be filled and the <Line-Delivery> segment is not present. Otherwise, the <Delivery> segment is not present, and the <Line-Delivery> segment must be completed for each line item.

12) The field must be completed if the invoice recipient requires it.

13) Mandatory field for invoices that relate to goods being a subject to product tax.

14) Mandatory field for a duplicate invoice.

15) Optional field - it can be sent only for a correcting invoice. If the reason for correction is the same for all goods items covered by the invoice, the <CorrectionReason> segment should be filled in only in the header, otherwise the <CorrectionReason> segment is not in the header, but should be filled in for each line item.

In KSeF only one correction reason could exist for whole correcting invoice.

16) The field is optional for a correcting invoice - if the price is increased after the original invoice has been issued, this field must be completed.

17) This field is mandatory in case of a price increase correction.

18) In the case of deposit goods, the amount of the deposit for deposit goods is given instead of the net amount of the item.

19) Optional field in case of reverse charge <TaxCategoryCode> AE </TaxCategoryCode>

20) Items used only when a target currency has been defined.

~~21) Either a Name field or a collection of FirstName and LastName fields must exist~~

~~22) There must be either a StreetAndNumber field or a set of StreetName, BuildingNumber, FlatNumber fields~~

23) Either a UnitOfMeasure field or a UnitOfMeasureDescription field can exist

~~24) Required field in the set of fields for addresses from Poland for KSeF~~

25) Either a Role field or a RoleDescription field must exist

26) Either a DeliveryTermsCode field or a DeliveryTermsDescription field can exist.

27) Either a SalesDate field, a DeliveryDate field, or an InvoicingPeriod field can exist.

28) Required field for TaxRate = 0

29) Required field if any of the following fields are present: Seller / FinancialInstitutionName, Seller / FinancialInstitutionNumber

~~30) The field is required if there is Seller / AccountNumber and Seller / Country different from PL~~

~~31) Required if there is an AdditionalParty section with Role = 1 that contains Country different from PL~~

32) Either an InvoicePaymentMeans or an InvoicePaymentDescription field can exist

33) There can be either a PaymentDate field or a PartialPayment section

34) There may be either a LandVehicle section or a SwimmingVehicle section or a FlyingVehicle section

35) Either a TransportType field or a TransportDescription field must exist

36) Either a CargoType field or a CargoDescription field must exist

37) There can be either a VIN field or a BodyNumber field or a ChassisNumber field or a FrameNumber field

~~38) There can be either a Name field or a collection of FirstName and LastName fields~~

~~39) The field is required, if PaymentAccountDetails / AccountNumber and Seller / Country are present, is different from PL~~

40) The value is completed when receiving documents from the KSeF via the Comarch EDI platform.

~~41) Required if MessageType is equal to "SB"~~

- 42) ~~Required if MessageType is different from "SB"~~
- 43) Duplicates are not used in the KSEF
- 44) This section is used if the delivery data is common to the entire invoice
- 45) This section is used when the delivery data of individual lines are different
- 46) This section is used when there are multiple shipments under one invoice
- 47) One of the fields should be completed: TaxID, LegalNumber, if the sender is an entity other than the Seller and the field is to be used as a technical field
- 48) Required field if there is a need for the sender's details to appear in the document
- 49) ~~The field can occur if MessageType is equal to "SB"~~
- 50) For KSEF, this value is broken down according to the following algorithm:
- If the value contains ; (semicolon), then the value is broken down into subvalues and:
 - If the subvalue contains : (colon), then the value before the colon is considered the key and the value after the colon is considered the correct value.
 - If the subvalue does not contain : (colon), then the subvalue is considered both a key and a true value.
 - If the value does not contain ; (semicolon), then the value is divided into a maximum of 256 character subvalues and each of them is considered as value with „Uwagi” key
- 51) The field must be completed in the case of an advance invoice or advance adjustment invoice
- 52) For an advance invoice or an advance credit memo, the field value in at least one line must be ORDER.
- 53) The length of the field depends on the number of occurrences of the AdditionalRemarks section. It is assumed that one occurrence of AdditionalRemarks shortens the Remarks by 256 characters.
- 54) Field used to distinguish whether a given reference contains information about a corrected invoice or an advance invoice. If the field is not filled in, it means that the reference contains the corrected invoice data.
- 55) The following countries are allowed in the condition: AT,BE,BG,CY,CZ,DK,EE,FI,FR,DE,EL,HR,HU,IE,IT,LV,LT,LU,MT,NL,PL ,PT,RO,SK,SI,ES,SE,XI

Sposób przesyłania dokumentów:

Poszczególne dokumenty należy przysyłać w oddzielnych plikach zgodnie z regułą 1 dokument w 1 pliku.

Sposób kodowania:

Dokument jest kodowany w standardzie UTF-8

Typ:

M- Mandatory – pole obowiązkowe

O- Optional – pole opcjonalne

C – Conditional – pole warunkowe

[n] – maksymalna ilość wystąpień

W przypadku, kiedy ilość wystąpień jest różna od 0 lub 1, maksymalną ilość oznacza się ilością nawiasów kwadratowych. Minimalną ilość wystąpień oznacza wymagalność pola.

Format pól:

Precyzuje zakres przyjmowanych wartości (dopuszczalny zakres znaków), dokładność wartości liczbowych rzeczywistych:

[A-Z](3) zakres znaków, litery duże od "A" do "Z" maksymalna ilość znaków 3

X(n) zakres znaków, dowolne znaki o kodach szesnastkowo z przedziału "0x20" do "0xFF" ; w przypadku używania znaków ('<', '>' i '&') lub innych o kodach szesnastkowo z przedziału "0x80" do "0xFF", pole powinno być zawarte w sekcji CDATA

[0-9](13) zakres znaków, cyfry od "0" do "9", maks. ilość znaków 13

[-0-9](20) zakres znaków, cyfry od "0" do "9" i znak minus "-", maks. ilość znaków 20

N0 liczba całkowita

R2 liczba rzeczywista z ustaloną precyzją, dokładność do dwóch pozycji dziesiętnych (np.23.45) część dziesiętna oddzielona kropką

CCYY-MM-DD formatowanie pola daty ("CCYY" – 4 cyfrowy rok, "MM" – 2 cyfry miesiąca, "DD" – 2 cyfry dnia)

hh:mm formatowanie pola czasu ("hh" – 2 cyfrowa część oznacza godziny w systemie 24 godz.: 00 – 23, "mm" – 2 cyfrowa część minutowa: 00 – 59)
